

*There is no place like home ...  
especially when you can take it with you !*

There are more than 90 manufacturers of Recreation Vehicles (RVs) in the USA alone. The ones listed to the right of the page are just a sample.

## Types of RV :

**Class A** - Single wheelbase specially designed motorhome chassis referred to as the conventional motorhome.

**Fifth-Wheel Trailer** - Designed to be affixed and towed by a pick-up equipped with special hitch in the truck bed.

**Class B** - commonly referred to as the van camper, factory built to a camper van design.

**Travel Trailer** - A unit designed to be towed by a car, van or pick-up by means of a bumper or frame hitch.

**Class C** - sometimes referred to as a mini-motorhome (up to 28 feet) manufactured van frame with an attached cab section.

**Folding Camper Trailer** - A lightweight unit with sides that collapse for towing and storage.

**Van Conversion** - as they are usually modifications to Chevrolet or GMC vans.

**Truck Camper** - A unit loaded onto, or affixed to, the bed or chassis of a pick-up.
